What is the Munich Muscle Meeting?

The Munich Muscle Meeting is a consortium of Munich muscle research groups. Our aim is to bring together different muscle research groups to organise regular meetings and discuss current topics in muscle science. Furthermore, we want to initialise collaborative projects.

Program

Welcome and refreshments

Moderation: Dr. Peter Meinke / Prof. Dr. Benedikt Schoser

16.00 - 16.05: Schoser, Benedikt
(Friedrich-Baur-Institut, LMU)
Welcome and refreshments

Scientific talks

16.05 - 16.35: Franchi, Martino
(Department of Orthopaedics,
University of Zurich):
*“Skeletal muscle adaptations to
distinct contraction types: from whole
muscle morphology to molecules”*

16.35 - 16.50: Drey, Michael
(Geriatric Medicine, LMU):
“Neurogenic sarcopenia”

16.50 - 17.20: Kröger, Stephan
(Biomedical Center, LMU):
*“Muscles have feelings too:
proprioception in health and disease”*

17.20 - 17.35: Trefz, Johannes
(Exercise Biology, TUM):
*“Effect of hypoxia on the interactome
of the Hippo effector Yap in muscle”*

The Munich Muscle Meeting Group at the last meeting.

17.35 - 17.50: Schuster, Robert
(Department of Biomechanics in Sports,
TUM):
*“Analysis of neuromuscular activation
patterns during drop jumps from varying
heights”*

17.50 - 18.00: Henning Wackerhage
(Exercise Biology, TUM)
*“Outreach – One Munich Muscle Meeting
per year to present our work for a broader
audience, such as journalists, health
insurance agencies, sports
associations...?”*

Get together

After 18.00: Optional continued discussions in a
Biergarten (e.g. at the “Mariandl”)

In general

Lectures (English) should allow sufficient time for
discussions (e.g. 10 min talk plus 5 min discussion)
