

## **Garmin fenix 7**

The Garmin fenix 7 is a smart GPS multisport watch. The watch can be used to select and measure a wide variety of preset sports. It has the following sensors: Accelerometer, wrist heart rate, pulse oximeter, altimeter, thermometer, etc. The watch can be combined with a heart rate belt with heart rate sensor from Firstbeat. Due to its robustness and long battery life, the fenix 7 is ideally suited for outdoor sports and navigation.
